Subject: New 407 Mirror part numbers

## Peggy,

As we discussed yesterday, it was discovered during the installation of a D206-558 mirror kit on a 407 here at Eagle that the cable was about 6" too short for the 407. Therefore, we have created new part numbers for the single and dual mirrors that are specific to the 407. The D407-558-045 is the single mirror and the D407-558-047 is the dual mirror. These kits are identical to the -041/-043 kits except for the cable and a thicker grommet. Please see DSI 9436 attached.

Please ensure your sales team is aware of this change and knows to ask whether the mirror is being installed on a 407 or not so that the customer gets the right kit as this change will not be consistent with the information in the 2009 catalogue.

David
